R & R Wolf Construction, Inc.
Rob Wolf and Paul Corriveau
570 Kelley Blvd.
North Attleboro, MA 02760

Dear Rob and Paul,

We here at Lemax wanted to take some time and express to you our genuine gratitude for all you have done for us.

Having had poor results previously, the process of interviewing and committing to a contractor was one that we were extremely tentative about undertaking. However from our initial telephone conversation when your courtesousness and professionalism were clearly evident. To the initial meeting where you took the time to genuinely understand our needs, wants, goals and fears. It was soon obvious that your work is much more than just your work as you both made a personal commitment to this project.

We had to have construction done and continue to be operational throughout the process and you made it happen for us seamlessly!!! No matter what the question or concern you always had the insight that put us where we wanted to be. Adjustments on the fly in the heat of construction were never a problem for you guys! When our imaginations ran bigger than our wallet you were the voices of reason.

We cannot leave out the fact that the personnel that work with your company are top notch. Bill is a gem! Talk about making us feel comfortable with this overwhelming project that guy makes it happen every day!!

We went from not even having a complete concept of what we wanted when we began to a workplace that has visitors not believing their in the same building they visited previously. R & R Wolf Construction is the real deal soup to nuts!

We cannot recommend your company highly enough and welcome you to bring in any prospective customer to see your handy work first hand.

Thanks again from your friends at Lemax.

Sincerely Yours,

Gaston Lee
